Teacher notes

Children will write the number of objects in each group, cut out the objects and order from smallest to greatest. Children will progress to writing comparison sentences for each group to compare the objects.

DEVELOPING

Children will count and order the groups of objects.

SECURE

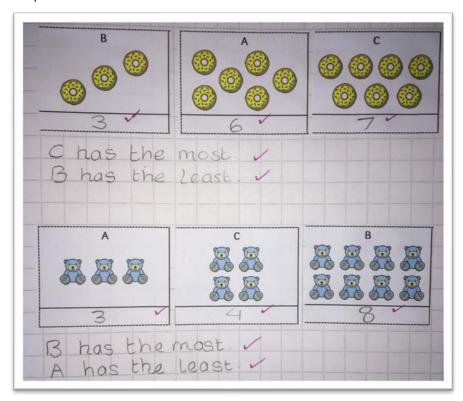

Children will count and order the groups of objects and identify which group has the most and least. Stem sentences may be used.

MASTERY

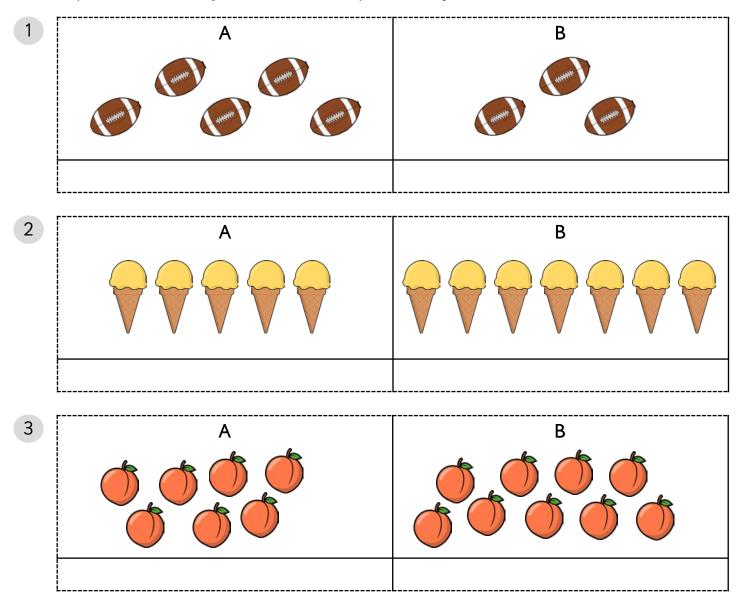

Children will count and order the groups of objects and identify which group has the most and least. Children will then write as many comparison sentences to compare the ordered sets.

Example:

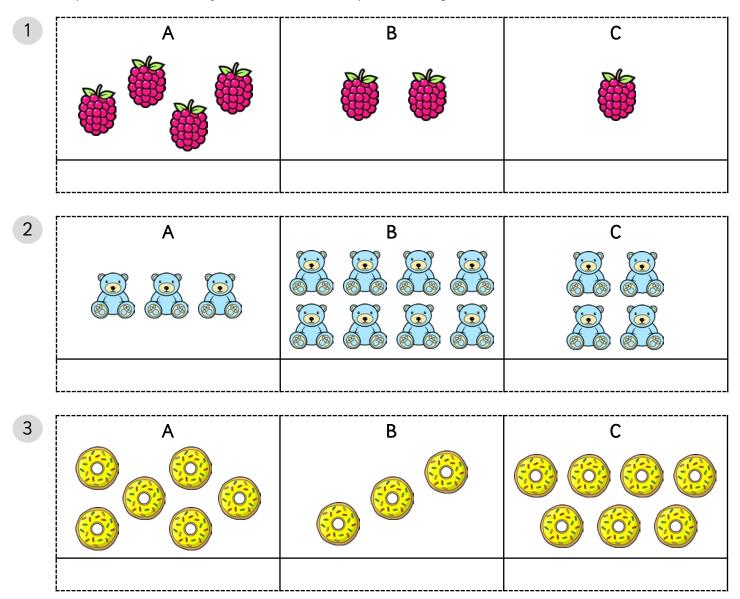

Order objects

Write the number of objects in each group. Cut out the objects and order from smallest to greatest. Write comparison sentences for each set to compare the objects.

Order objects

Write the number of objects in each group. Cut out the objects and order from smallest to greatest. Write comparison sentences for each set to compare the objects.

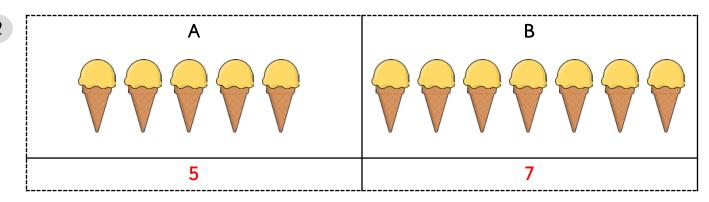

Answers - Order objects

Write the number of objects in each group. Cut out the objects and order from smallest to greatest. Write comparison sentences for each set to compare the objects.

Smallest to greatest:
